

SLASH AND MOW THE MOST DIFFICULT AREAS

New Double
Cutting Head
(Optional)

The ECO Brushcutter/Mowers are perfect for hard to reach areas or places with rough, thick or even wet grass and small shrubs.

They are able to clear rough ground on all terrain conditions, safely and with less effort. The protective shield keeps you clean and options such as offsetting enable you to cut along walls and under fence lines while the self drive model takes out all the strain of mowing and brushcutting.
